Gentlemen:

We are returning the enclosed Form C-103 on the subject well for additional information.

Please show the casing weights for each string, if more than one weight was used, show footage of each weight, the amount and type of cement used and the WOC time, pressure test and results of same for each string of casing set. Also, please advise if the 10 3/4" casing was recovered or is still in the hole and why you did not circulate cement behind the 8 5/8" casing.

If you have any questions concerning this matter, please feel free to contact me.

Sincerely,

A handwritten signature in cursive script that reads "W. A. Gressett".
