Hobbs, New Mexico

Re: Plugging White #1

Dear Mr. McAdams:

A check of the file on your White #1 shows that you have filed an intention to plug on Form C-103, and an affidavit of responsibility on converting this into a water well, however, we have not received from you the Report on Results of Plugging, or the statement from the landowner referred to in the affidavit. It may be that this well has not yet been plugged, or that the site is not in order. We shall appreciate it if you will let us know by filing Form C-103 showing the results of the plugging, as well as the statement, when this work has been done, so that we may dispose of this matter.

Yours very truly,

OIL CONSERVATION COMMISSION
