

OIL CONSERVATION COMMISSION

HOBBS, NEW MEXICO

December 9, 1955

Mr. Jack Hitson
212 W. 6th St.
Clovis, New Mexico

Re: Joe E. Morrison Myrick #1-E
Sec. 17-2N-25E, De Baca County

Dear Mr. Hitson:

Regarding your recent conversation with the Santa Fe office concerning the above-named well, this matter has been referred to the Hobbs office, inasmuch as this well is located in District 1. The reason that the bond covering your Myrick #1 well has not been released is that the required Commission forms as set out in Section M of the statewide Rules and Regulations have not been filed with this office. To assist you in this regard we are mailing you under separate cover sufficient forms to cover the following reports which this office must receive before any action can be taken toward releasing the bond. The reports which must be filed are as follows:

- (1) Form C-103 reporting the setting and cementing of 10-3/4" Casing
- (2) Form C-103 reporting the setting and cementing of 7" Casing
- (3) Form C-103 reporting the setting and cementing of 5-1/2" Casing
- (4) Form C-103 reporting the setting and cementing of 3-3/4" Casing, if such was set.

On all the above forms it will be necessary to state the hole size and the drill total depth at the time such casing was set, also to give the number of joints, weight, and grade of casing run. Further, it will necessary to state the number of sacks of cement used and how they were run, as well as the point at which the casing was set.

In addition to the above forms, it will be necessary for you to submit Form C-103, Report on Plugging, giving a detailed account of how said well was plugged. This should include the amount of casing recovered from the well, if any was recovered, the point at which such casing was removed, the point at which the plugs were placed and the number of sacks in each plug.

All the above C-103s must be notarized before they can be accepted by this office. It will be necessary for you to submit also, Form C-105, Well Record, filling in this form as completely as possible.
