HISTORY OF OIL OR GAS WELL

It is of the greatest importance to have a complete history of the well. Please state in detail the history of the well with the reasons for the work and its results. If there were any changes made in the casing, state the size and location of the "sidetracked" or left in the well, give its size and location. If the well has been dynamited, give date and details of shots. If plugs or bridges were put in to test for water, state kind of material used, position and depth of plug or bridge.
