Re: Norman R. Jones (Exploration
Funds, Inc.) 1-A State Well,
Section 16, Township 30 South,
Range 14 West

Gentlemen:

Your office has received cuttings and samples at regular intervals throughout the drilling of this well and you prepared a sample log with due notations as to water points, etc.

Our firm has been unable to locate the file containing this data, and we would appreciate it if you would furnish our Houston office with copies of the aforementioned sample log.

The well was abandoned approximately one year ago. This is of the utmost importance to us and your prompt attention would be greatly appreciated.

Yours very truly,

Burch Downman, Jr.
