RE: Ramsey #25-2 State Well.
C-101 Form. Playas, N.M.

Dear Mr. Williams:

I am pleased to know that Ramsey #25-1 well has been approved and bond dismissed from that well, so it can be moved to cover the Ramsey #25-2 Well.

As I advised you today on our telephone conversation, the drilling rig will arrive at the well site June 29th and will start drilling the Surface Casing hole that night or Saturday June 30th. If all goes okay, we hope to cement 600 feet surface casing Sunday July 1st. Casing is 8-5/8" 24# J-55 API New. I will telephone your office when I order Halliburton Cementing trucks from Artesia, N.M.

Thank you for your call a few minutes ago regarding the C-102 form. In our rush we attached the old C-102 from #25-1 Well of April 1989. As you requested I am enclosing the Original Survey Form No.C-102 signed by me, covering #25-2 well. We do appreciate your assistance.

Ms Diane Richardson, OCD office Santa Fe, just assured me by telephone that the Insurance plugging bond for the #25-2 well has been approved, and she received FAX copy of the Survey Form C-102 covering #25-2 well, so all is in order.

Sincerely,

Arthur B. Ramsey.
