17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Spudded well at 4:00 P.M., January 6, 1984. Drilled 17 1/2 inch hole to 60 feet. Ran 47 feet of 13 3/8 inch, 54.5 lb. casing and cemented with 9 sacks from TD to surface. Drilled 12 1/4 inch hole to 444 feet. Ran 8 5/8 inch 24 lb. casing but could not get casing below 60 feet. Pulled casing and cleaned well out to 205'. Set 20 sack cement plugs from 175' to 205' and 102' to 132'. Ran a 110 sack cement plug at 100' and tagged top at 90'. Drilling crew dropped a table bushing in hole. Ran bit and drill pipe to 85' and did not encounter fish. Dumped 25 cubic yards of ready mix cement in bore hole and brought top of cement within 4' of surface. Let cement set 22 hours. Ran bit and drilled hard cement to 69' and green cement to 90'. Drilled out cement plug from 115 ft. to 119 ft. Cleaned out bore hole to 175 ft. and lost circulation. Tripped out of hole and ran back in and hit table bushing at 72 ft. Attempted to mill up bushing but was unsuccessful. Mr. L. A. Clements, Supervisor of OCD's No. II District, was contacted and he granted permission to abandon hole and start a new well within a 50 ft. radius. Ran 68.5 ft. of 8 5/8 inch 24 lb. casing and left 64.5 ft. hanging in well. The well will be transferred to lessor, Mr. Kenneth Nosker, for a water well.

Water sands are as follows: 90 ft. - 95 ft.; 100 ft. - 113 ft.; 118 ft. - 120 ft.; 180 ft. - 184 ft.; 190 ft. - 195 ft.; 375 ft. - 380 ft.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
