Mr. Roy O. Yarbrough  
New Mexico Oil Conservation Commission  
Box 1545  
Hobbs, New Mexico

Dear Mr. Yarbrough :

This letter is with further reference to the Otero Oil Company well in SESW Section 5, Township 22S, Range 10 E, Otero County, New Mexico, about which we have corresponded earlier this year.

The plugging of the well in question has been completed in accordance with established procedure and the same is ready to turn over to the McGregor Land and Cattle Company, who will accept the same as a water well. We believe that all proper forms have been filed with you by Mr. G. E. Fairey of Artesia, New Mexico, who handled the plugging operations, with the exception of final report form C-103.

We have just had handed to us the final report form C-103 and we attach the original and two carbon copies to this letter for your attention.

If this matter is now in proper shape for the final approval of the Oil Conservation Commission we will greatly appreciate your taking the necessary measures to close same out finally on your records and furnish this office with notice of termination and release of surety.

Thanking you for your cooperation and if there is any further data that you require please advise.

Very truly yours,

C. W. L. STEEN, Jr.,  
Manager
