Re: West Dog Canyon Unit  
#1-H, 18-25S-20E  
Otero County, N. M.

Dear Mr. West:

After inspection of the subject well early in January, 1975, we requested by letter that the location be cleaned up by removing or burying all junk, filling and levelling the pits and submit Form C-103 showing that the work had been completed.

To date, we have received no reply to this letter.

Therefore, we are again requesting that this work be completed and the report submitted. Failure to comply will result in this matter being referred to our attorney for further action.

Sincerely yours,

W. A. Gressett  
Supervisor, District II

Re: West Dog Canyon Unit  
#1-H, 18-25S-20E  
Otero County, N. M.

Gentlemen:

An inspection was made of the subject plugged back and converted to a fresh water well. Said inspection revealed the following items which must be accomplished at your earliest convenience and a subsequent Form C-103 stating when the following work was completed. This must be done prior to an approval of the above mentioned Form C-103.

1. Remove or bury all junk, boards, cans, bottles, tubing, tank parts and pieces, ladders, etc. on the location.
2. Fill and level pits.

Very truly yours,

OIL CONSERVATION COMMISSION
