Re: Lewelling  
#2-C-10-12S-9E  
Otero County, NM

Gentlemen:

We are returning the enclosed Forms C-103 on the subject well for corrections and additional information.

Please check the weights on the 20" and show the WOC time, pressure test, and results of same.

On the 13 3/8" casing, show the footage of each weight used. Further, I understood that a bit was lost in the hole, the well was plugged back and a whipstock set to drill by the bit.

Please submit Form C-103 with all of the details, including the amount of cement used for each plug and where they were set.

Commission Rule 111 reads in part as follows: "No well shall be intentionally deviated without special permission from the Commission".

If you have any questions concerning this matter, please feel free to call upon me.

Sincerely yours,

W.A. Gressett  
Supervisor, District II
