

## INSTRUCTIONS

This form is to be filed with the appropriate State Office of the Commission not later than 20 \_\_\_\_\_ after the completion of any newly-drilled or deepened well. It shall be accompanied by one copy of all electrical and radio-activity logs run on the well and a summary of all special tests conducted, including drill stem tests. All depths reported shall be measured depths. In the case of directionally drilled wells, true vertical depths shall also be reported. For multiple completions, items 10 through 34 shall be reported for each zone. The form is to be filed in quintuplicate except on state land, where six copies are required. See Rule 1105.

Re: George J. Ablah #1  
Otero County, New Mexico

Dear Sir:

As per your request dated December 11, 1978 please find 8 copies of the revised C105 form for the plugging of TransOcean's George J. Ablah #1 Well.

With reference to the Affidavit of Responsibility that the Operator is to clean up the location, please find an invoice from Mr. Bebo Lee (son of the owner of Hat Ranch Inc) for cleaning up the location and a copy of the check issued for payment.

Attached also please find logs run on the Well - Compensated Neutron Formation Density, Compensated Neutron Formation Density and Dual Induction SFL.

Also attached are an amended copy of Temporary Abandonment until Shallow Zone can be further evaluated (September 25/78) and Plug Back and Released to Landowner (September 24/78), which we have not yet received back from your office.

If any further information is required, please do not hesitate to contact us.

Yours very truly,

TRANSOCEAN OIL, INC.

C.S. Jones,  
Manager,  
Western Drilling Division.
