Re: Southland 28 State #1  
Unit M, 28-25-17  
Southland 32 State #1  
Unit-P, 32-25-18

Gentlemen:

A recent field inspection trip on the two subject wells revealed that some problems need to be corrected before the final plugging can be approved.

On the Southland 28 State #1 the P&A marker needs to be corrected. The marker should have the name and number of the well and its location (Unit letter, section, township, and range) shall be welded, stamped or otherwise permanently engraved into the metal of the marker, NMOCD Rule 202.

On the Southland 32 State #1 the P&A marker should read as outlined above. The cellar needs to be filled and the pit needs to be filled and the location levelled and cleared of junk.

Please notify me at this office as to when this work is completed. If you have any questions concerning this matter please feel free to call me.

Sincerely yours,

Mike Williams  
Oil & Gas Inspector
