RE: MARALO, INC. BUTLER SPRINGS UNIT, WELL NO. 2, SECTION 12,  
T-15-S, R-28-E, CHAVES COUNTY, NEW MEXICO.

Gas analysis averaged 91-1/2 mol % N<sub>2</sub> and 8-1/2 mol % hydrocarbons with a BTU content of 88 to 90.

Since the N<sub>2</sub> content is high and BTU value low there is no market for the gas and the well is currently shut in.

As there is no market for the gas we have not gone to the expense of taking a CAOF test.

RE: MARALO, INC. BUTLER SPRINGS UNIT, WELL NO. 2, SECTION 12,  
T-15-S, R-28-E, CHAVES COUNTY, NEW MEXICO.

Gentlemen:

This is our statement that the acreage for the above referred  
to gas well is not dedicated.

Yours truly,

MARALO, INC.
