Re: State ET No. 1
NE NW 36-15S-27E
Chaves County, New Mexico

Dear Mr. Williams:

Pursuant to a telephone discussion today with Mr. Michael Stogner of your Santa Fe office concerning the proper pool designation for the captioned well, Foran Oil Company would like to request that the new Diamond Mound-Atoka Gas Pool, formed by Order No. R-8892, dated March 20, 1989, be expanded to include Section 36-15S-27E, Chaves County, New Mexico, at your next nomenclature hearing.

During May of this year, the subject well was re-completed from the Morrow zone (new Diamond Mound-Morrow Gas Pool) to the Atoka zone (carried under the Diamond Mound-Atoka Undesignated Gas Pool), by setting a bridge plug above the Morrow zone and perforating the Atoka zone (see Form C-103 dated May 29, 1989, previously submitted).

If I can answer any question concerning this matter, please give me a call.

Very truly yours,

Les M. Carnes
Executive Vice President

LMC/cc
