porosity, 2 vertical fractures, 30% brown to tan opaque chert.

Sec. 18'

Top 5' finely crystalline to medium crystalline brown dolomite trace tan opaque chert, trace small inter-crystalline and vuggy porosity, pin point fluorescence no out, no stain, 8' finely crystalline brown dolomite, trace inter-crystalline porosity, no shows, 5' finely crystalline brown dolomite.

Sec. 14'

5' finely crystalline to medium crystalline brown dolomite w/trace vuggy porosity, no shows, 30% tan opaque chert, 8' medium crystalline brown dolomite, 10% fair inter-crystalline porosity w/trace yellow and scattered blue fluorescence. no shows.

Devonian, 2 packers, 2 hrs. 5/8" BHC and 1" AC, No AC, fair blow gradually decreasing, Rec. 3090' sulphur water, BHFP 1400#, 15 min. 3-I BHP 1500#, HH 2450-2350#.

Sec. 30'

Finely crystalline tan to brown dolomite some slight siliceous w/gray and green shale partings, sulphur odor thru-out trace to 10% small vuggy inter-crystalline porosity, dull yellow fluorescence.

Sec. 20'

Finely crystalline tan to brown dolomite some slight siliceous w/gray and green shale partings, sulphur odor thru-out trace to 10% small vuggy inter-crystalline porosity, dull yellow fluorescence, 6' good inter-crystalline porosity, sulphur odor and dull yellow fluorescence thru-out

Devonian, 2 packers, 3 hrs. 5/8" BHC and 1" AC, No AC, Rec. 100' sulphur water, no shows, Circ. sub opened, Est 1500' sulphur water lost, BHFP 125-755#, 15 min. 3-I BHP 1370#, HH 2910-2390#.

Pulled 495' of 10-3/4" OD (17 joints)

4" x 4" monument installed.
