Empire Yates Seven Rivers Pool

Dear Sir:

According to our records on the above captioned wells in the Empire Yates Seven Rivers Pool, the wells have been shut-in since 1979-1980.

On your C-104, for Change of Operator name, you have listed Navajo as your purchaser. Are the wells producing now? If so, you will need to file a C-103 showing what has been done to the wells since 1979 or 1980 and then an allowable can be assigned. Until we receive a Request for Allowable from you, these wells will be considered shut-in and have no allowable.

If we can help you in any way, please let us know.

Very truly yours,

Leslie A. Clements
Supervisor, District II
