Well No. 10 is located 2310 ft. from S line and 330 ft. from W line of sec. 18
SW 1/4 18 17S 28E NMPM
(1/4 Sec. and Sec. No.) (Twp.) (Range) (Meridian)
Empire Eddy New Mexico
(Field) (County or Subdivision) (State or Territory)

The elevation of the derrick floor above sea level is _____ ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

We plan to drill to shallow pay, about 550', and will set 8 1/4 inch casing to shut off water if encountered. Will set and cement 7 inch casing at about 500 feet, using 25 sacks of cement. Expect pay around 530 feet.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
