Re: Brooks <sup>28</sup>  
#6-E-19-17-38

Gentlemen:

According to the field representative the above captioned well is found 1680/N & 990/W in 19-17-28. If this is the right well, it is plug and abandoned.

The well file shows the well to be 1760/S and 220/E in 19-17-28, and is in the proration book as producing.

The last paper work we have on the well is dated May 31, 1979.

Please let us know which is correct.

Sincerely,

Mike Williams  
Supervisor District II
