

OIL CONSERVATION COMMISSION

Santa Fe, New Mexico

MISCELLANEOUS REPORTS ON WELLS

OCT 25 1950

Submit this report in triplicate to the Oil Conservation Commission or its proper agent within 60 days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of casing shut-off, result of plugging of well, and other important operations, even though the work was witnessed by an agent of the Commission. Reports on minor operations need not be signed and sworn to before a notary public. See additional instructions in the Rules and Regulations of the Commission.

Indicate nature of report by checking below:

Gentlemen:

Following is a report on the work done and the results obtained under the heading noted above at the _____

E. E. Scannell State _____ Well No. 3 in the _____
Company or Operator Lease
SE of Sec. 20, T. 17 S, R. 28 E, N. M. P. M.,
Red Lake Field, Eddy County.

The dates of this work were as follows: Oct 20th to Oct. 24, 1950Notice of intention to do the work was (was not) submitted on Form C-102 on No 19and approval of the proposed plan was ~~was not~~ obtained. (Cross out incorrect words.)

DETAILED ACCOUNT OF WORK DONE AND RESULTS OBTAINED

In accordance with our conversation and your approval, the following work was done on this well. A sand showing some oil was encountered between 1829 and 1867 feet. Well was drilled to 1920, with no other shows. It was plugged back to 1867' and shot with 150 quarts of nitroglycerin between 1829 and 1867'. The test before shot showed 8 barrels a day. The well was cleaned out to 1872', tubing was run and set at 1871'. The well was swabbed. No test has been taken. It will be put on the pump.
