FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

Total D. 3374 ft. Pipe run was 7 in. instead of 8 in. Set at 1819 ft. in lime - got shut-off, made 23 ft. more hole - water broke in - do not know where - think we might have new pay in bottom. Have been shut down ten days repairing, but running now - bailing water. Will bail dry and make a few feet - if we do have a pay, want to set 3325 feet of 5.3 pipe and cement. If I get a shut-off, want to pull 7 in. OD. Should we not have pay in bottom will proceed as per previous report. If and when well is finished, will shoot and report results.
