P. O. Drawer DD
Artesia, New Mexico

Dear Mr. Gressett:

In compliance with Rule 401 "Method of Determining Natural Gas Potential", please be advised that the following open flow potential volume test was made on March 10, 1966, on the Charles B. Read #2 Bogle Farms located in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 13, Township 16 South, Range 31 East, Eddy County, New Mexico: Test was made by Phillips Petroleum Company.

Line Back Pressure 600#
Flowing Tubing Pressure 800#
Choke 15/64"
Gas Temperature 60°F
Separator Pressure 460#
4" Line x 1-1/2" orifice
Rate of Flow 1023 MCF per day

Yours very truly,

CHARLES B. READ
