17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

This well is presently completed in the Wolfcamp with Atoka under packer and blanking plug. When Wolfcamp completion was sand frac'd in April, 1977, the perforations screened out causing some 200 feet of sand fillon the Atoka packer (7020'). We propose to clean out this fill, tie the tubing into the Atoka packer, retrieve the blanking plug thereby opening the Atoka pay into the tubing and placing the Wolfcamp completion in the casing annulus. A permit to downhole commingle will be asked for after establishing the reserves first in the Atoka and later in the Wolfcamp.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.

SIGNED Eddie L. Wolfcamp TITLE Engineer DATE 9-28-78

APPROVED BY W. A. Gressett TITLE SUPERVISOR, DISTRICT II DATE SEP 29 1978
