

MULTI-POINT SURFACE USE AND OPERATIONS PLAN

BETTIS, BOYLE & STOVALL

CROW FLATS FED COM "15" NO. 1

2180' FNL & 660' FEL

SECTION 21, T-16-S, R-28-E

EDDY COUNTY, NEW MEXICO

This plan is submitted with Form 3160-3 covering the above described well. The purpose of this plan is to describe the location of the proposed well, the proposed construction activities and operations plan, the magnitude of necessary surface disturbance involved, and the procedures to be followed in rehabilitating the surface after completion of the operations so that a complete appraisal can be made of the environmental effects associated with the operation.

1. EXISTING ROADS:

Exhibit A is a vicinity map.

Exhibit B is a portion of a U.S.G.S. topographic map of the area showing the location of the proposed wellsite and roads in the vicinity. The location is situated approximately twenty three miles east of Artesia, New Mexico via the route shown in red.

Directions:

Proceed east from Artesia on Highway 82 for approximately 14 miles.

Turn left on Dog Canyon Road and continue north approximately 9 miles.

Turn left and continue approximately 2180 feet to wellsite.

2. PLANNED ACCESS ROAD:

A.) The proposed new access road will utilize 2180 feet of existing two track road to the north.

B.) The road will be a caliche road approximately 12 feet in width.

3. LOCATION OF EXISTING WELLS:

A.) The well locations in the vicinity of the proposed well are shown on Exhibit C.

B.) There is no producing well on this lease at present.

4. LOCATION OF PROPOSED FACILITIES:

In the event that the well is productive, the necessary production facilities will be installed on the drilling pad.
