Eddy County, New Mexico  
USA OGLse.#NM-7724

This plan is submitted with the application for permit to Drill the above described well. The purpose of the plan is to describe the location of the proposed well, the proposed construction activities and operations plan, the magnitude of necessary surface disturbance involved, and the procedures to be followed in rehabilitating the surface after completion of the operation so that a complete appraisal can be made of the environmental effects associated with the operation.

#### **1. EXISTING ROADS:**

A. Exhibit "B" is a portion of a road map showing the location of the proposed well as staked. The well is approximately 7.5 miles Northwest of the Village of Loco Hills, N.M.

B. Directions: As reflected on map Exhibit "B", follow State Highway 82 East from Artesia, New Mexico for approximately 25 miles to Loco Hills, turn North on County Road 217, thence North 7.75 miles to Kayjay Southwest Henshaw Lease Sign, thence West 2.0 miles, thence Northeast at cut-back, thence 1/10 miles to location.

#### **2. PLANNED ACCESS ROAD:**

The planned access road is indicated on Exhibit "B" and Exhibit "C" with a yellow coloration.

A. Length and Width: There is 12,200 feet of existing oil field road. The Well is located on an existing plugged well location.

B. Surfacing Materials: The road will be flat bladed and crowned with 6 " of compacted caliche if needed.

C. Turnouts: None

D. Maximum Grade: No more than 1% at any given point en route to location.

E. Drainage Design: Road will have drainage ditches on both sides and a crowned top, with culverts and/or low water crossings as necessary. The existing access road does not presently appear to have or need any low water crossings.

F. Culverts: None necessary.
