

SURFACE USE AND OPERATING PLAN

Attachment to Form 3160-3
Devon Energy Corporation
Eagle 35 Federal #3
(L) 2310' FSL & 990' FEL
Section 34-T17S-R27E
Eddy County, New Mexico

1. Existing Roads:

- A. The well site and elevation plat for the proposed Eagle 35 Federal #3 is reflected on Exhibit #2. It was staked by Basin Surveys, Hobbs, New Mexico.
- B. All roads into the location are depicted in Exhibit #3. Approximately 200' of new road will be constructed to access the location from the existing county road. No upgrades to roads other than the access into location from existing road will be necessary.
- C. Directions to location: From the intersection of U.S. Hwy. 82 and county rd #225 go South on 225 1.5 miles to lease road go West on lease road 0.8 miles then North 200 feet to location.

2. Proposed Access Road

Exhibit #3 shows the new access road to be constructed from the existing lease road. It will be constructed as follows:

- A. The maximum width of the road will be fifteen (15) feet.
- B. It will be crowned and made of 6 inches of rolled and compacted caliche. Water will be deflected, as necessary, to avoid accumulation and prevent surface erosion.
- C. Surface material will be native caliche. This material will be obtained from a BLM approved pit nearest in proximity to the location.
- D. The average grade will be approximately 1%.
