Re: Over-production

---

**Shipley Lease**

---

**Square Lake Pool**

---

**Eddy County, New Mexico**

Gentlemen:

**October**

**64**

**Shipley Lease**

**332** Our records indicate that at the end of \_\_\_\_\_ 19\_\_\_\_\_,  
your \_\_\_\_\_ was over-produced by \_\_\_\_\_  
barrels, which is more than five times the daily allowable of \_\_\_\_\_  
barrels, the tolerance provided by the Commission Rules and Regulations. If  
these figures do not agree with your records, please let us know immediately.  
If the figures are correct, production from the well (s) should be restricted  
in such a manner as to eliminate this over-production in the shortest possible  
time, thereby, avoiding the necessity of shutting in the well.

No under-production can be carried forward and made up during a subsequent  
month, and any over-production must be adjusted by corresponding under-production.

Very truly yours,

M. L. Armstrong  
Supervisor, District No. 2
