REPORT OF THE COMMISSIONER OF LABOR

The report of the Commissioner of Labor for the year 1913 is a comprehensive one, covering a wide range of subjects. It is a valuable document for the study of labor conditions in New York State.

The report is divided into several parts, each dealing with a different aspect of labor. The first part deals with the general conditions of labor in the State.

The second part deals with the conditions of labor in the various industries. This part is particularly interesting, as it shows the progress made in many of the industries during the year.

The third part deals with the conditions of labor in the various occupations. This part is also very interesting, as it shows the progress made in many of the occupations during the year.

The fourth part deals with the conditions of labor in the various trades. This part is also very interesting, as it shows the progress made in many of the trades during the year.

The fifth part deals with the conditions of labor in the various professions. This part is also very interesting, as it shows the progress made in many of the professions during the year.

The sixth part deals with the conditions of labor in the various public services. This part is also very interesting, as it shows the progress made in many of the public services during the year.

The seventh part deals with the conditions of labor in the various public utilities. This part is also very interesting, as it shows the progress made in many of the public utilities during the year.

The eighth part deals with the conditions of labor in the various public works. This part is also very interesting, as it shows the progress made in many of the public works during the year.

The ninth part deals with the conditions of labor in the various public buildings. This part is also very interesting, as it shows the progress made in many of the public buildings during the year.

The tenth part deals with the conditions of labor in the various public institutions. This part is also very interesting, as it shows the progress made in many of the public institutions during the year.

The eleventh part deals with the conditions of labor in the various public hospitals. This part is also very interesting, as it shows the progress made in many of the public hospitals during the year.

The twelfth part deals with the conditions of labor in the various public schools. This part is also very interesting, as it shows the progress made in many of the public schools during the year.

The thirteenth part deals with the conditions of labor in the various public parks. This part is also very interesting, as it shows the progress made in many of the public parks during the year.

The fourteenth part deals with the conditions of labor in the various public libraries. This part is also very interesting, as it shows the progress made in many of the public libraries during the year.

The fifteenth part deals with the conditions of labor in the various public museums. This part is also very interesting, as it shows the progress made in many of the public museums during the year.

The sixteenth part deals with the conditions of labor in the various public theaters. This part is also very interesting, as it shows the progress made in many of the public theaters during the year.

The seventeenth part deals with the conditions of labor in the various public clubs. This part is also very interesting, as it shows the progress made in many of the public clubs during the year.
