17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

This Yeso well was reperforated in the Yeso formation and acidized as per last Notice of Intention. New perforations were, 1 shot each @ 1987, 1999, 2012, 2026, 2028, 2074, 2115, 2153, 2243, and 2264 KB, total 10 0.5" holes. Tubing, packer and R.B.P. were run to isolate this interval and well was treated with 1000g 15% NEA. Formation broke at 850 psi and the acid went on a vacuum. We swabbed the well for a few days, then put on pump but recovered only water. We plan to continue testing, but will isolate intervals and maybe locate an interval that is water-free and oil-bearing.

18. I hereby certify that the foregoing is true and correct
