OIL CONSERVATION COMMISSION,
 Santa Fe, New Mexico

Gentlemen:

Following is a notice of intention to do certain work as described below at the

Water Drilling Company **Gilbert** Well No. **LX** in
 Company or Operator Lease
 of Sec. **17**, T. **18**, R. **7**, N. M. P. M. **Red Lake** Field.
Eddy County.

FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

This well completed 5-27-48---TD 1,676'---Shot from 1570 to 1620. We intend to pull tubing, clean out well to bottom and run caliper survey for purposes of determining size of shot hole. Should we find it not too large for Lane gun to shoot through cement which would be behind casing we will run string of casing and cement up to bottom of oil string which is set at 1,112 ft. By this method we intend to control our frac oil. We intend to frac with between 8,000 -- 10,000 gallons using 1# sand to the gallon.

Approved FEB 11 1957, 19_____
 except at follows:
