SUPPLEMENT TO THE OIL PRODUCTION SCHEDULE

1. The Commission has received from the Board of Oil Conservation a report of the production of oil in the State of New Mexico for the year 1934. The report shows that the production of oil in the State for the year 1934 was 1,000,000 barrels, which is an increase of 100,000 barrels over the production for the year 1933.

2. The Commission has also received from the Board of Oil Conservation a report of the production of oil in the State of New Mexico for the year 1935. The report shows that the production of oil in the State for the year 1935 was 1,100,000 barrels, which is an increase of 100,000 barrels over the production for the year 1934.

3. The Commission has also received from the Board of Oil Conservation a report of the production of oil in the State of New Mexico for the year 1936. The report shows that the production of oil in the State for the year 1936 was 1,200,000 barrels, which is an increase of 100,000 barrels over the production for the year 1935.
