Dear Mr. Strake:

Your Notice of Intention to Drill LeSew well No. 7 (copy attached) in the SW 1/4 sec. 25, T. 19 S., R. 30 E., N.M.P.M., Eddy County, New Mexico, lease New Mexico 06767, has been forwarded to this office for approval.

Pursuant to authority delegated by the Director, Geological Survey on December 20, 1960, I hereby approve the Notice of Intention to Drill the LeSew well No. 7 to a depth of approximately 2,300 feet to test the Late-Seven Rivers formations.

Please notify the District Engineer, Geological Survey, Dresser U, Artesia, New Mexico, in sufficient time for a representative to witness all cementing operations.

Very truly yours,

(Orig. Sgd.) CARL C. TRAYWICK

Title **Supt.**

DETAILS OF WORK

It is proposed to drill a well to test the Yates and Seven Rivers formations at a maximum depth of 2300 feet. The drilling will be done with rotary tool equipment.

Surface casing will be set to the top of the Massive Salt (approximately 500 feet). This casing will be 8-5/8" OD, 24#, J-55 or equivalent. The surface casing will be cemented with a volume sufficient to circulate the annular space to the surface of the ground.

Provided commercial oil and/or gas production is obtained, production casing will be set to total depth drilled or plug-back total depth. The production casing will be 4-1/2" OD, 9.5#, J-55 grade or equivalent. It will be cemented with a volume equivalent to 150% of the annular space from the bottom of the casing to the base of the Massive Salt, or a minimum of 150 sacks, and preceded with mud laden fluid circulated to the surface of the ground.
