Re: W. H. Black, State-Lowe, Well
No. 2, SE NE Section 32-19S-30E,
Oil-Potash Area, Eddy County

Dear Sir:

Find enclosed herewith your approved copy of Form C-101, Notice of Intention to Drill the above captioned well subject to all provisions of Commission Order R-111-A for the drilling of shallow wells. You will note that this form has not been signed by you. This was due to your furnishing us with only five copies and we have made a copy for your file. In the future send six copies with a survey plat attached to each copy.

I wish to remind you that we have not received our copy of electric logs that was run on your State-Lowe No. 1 well which I requested in my letter of February 21, 1956. Also I want to point out again that you must notify this office at least 12 hours in advance of running and cementing any strings of casing in the Oil-Potash Area. Further I wish to point out that you shall comply with the provisions of Section VII, Page 6 of Order R-111-A and have approved copy of Notice of Intention to Drill in your office before spudding any future wells on State Land.

Yours very truly,

OIL CONSERVATION COMMISSION
