13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

This sundry notice is a request for a 60 day extension on the time period Brothers Production has to either place the wells back on production or P&A. Brothers received notice 6-15-2000 that we had 30 days to either P&A or re-activate the well. The 60 day extension will give Brothers Production enough time to properly evaluate the well. The certified letter was dated June 14, 2000. The 60 day extension will make the new due date 9-14-2000.
