Gentlemen:

As per our telephone conversation of September 9, 1974 concerning the above well being a non-standard location for a Morrow test at the depth deepened, it was our understanding that we did not have to receive permission to deepen the above well to get a permit to drill this well nearer to the lease line than Commission Rule states until the well was completed. We are enclosing two photostatic copies of waivers from offset operators, except Tenneco, which you have; a copy of our location plat, a plat showing offset operators; and a copy of the forms that we have filed with the Commission in Artesia. If you need the original waivers please advise and they will be mailed to you, or if you need any further information we will be glad to furnish same.

Yours very truly,

M. D. Rogers
Vice President
