13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

Amoco Production Company requests approval to remove one 500 bbl steel tank from our Greenwood Pre-Grayburg Unit #3 Battery (LC-029392-B, Section 27, T-18-S, R-31-E) and transport it for service at a new location on the well pad of Greenwood Pre-Grayburg Unit Fed /Penn/ No. 11. The tank will continue to handle all fluid production from the Greenwood Pre-Grayburg Unit Fed /Penn/ No. 11.

Amoco requests this change because the other two wells that currently serve this battery (No. 1 and 2) are to be plugged and abandoned.

We plan to begin this operation approximately November 1, 1996.
