(NOTE: Report results of multiple completion on Well  
Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

Original application to drill the Adams Federal #1 was filed 5-18-78. Approval to drill was granted July 14, 1978 (with 90 days of grace to commence drilling operations). Moranco Rig #3 was originally scheduled to commence drilling operations approximately August 15, 1978, however, problems with working interest owners forced us to postpone operations until about October 20, 1978. The scheduled rig will be unable to return to this project until about November 20, 1978. The permit will have expired by that time, therefore, it is requested that the permit to drill be extended thru December 20, 1978 to allow for slight variations in schedules.

18. I hereby certify that the foregoing is true and correct
