STATEMENT OF THE GOVERNMENT

The Commission on Government Administration was organized by the Governor of New Mexico in 1967. Its purpose is to study and report on the efficiency and economy of the state government. The Commission has held numerous public hearings and has received many suggestions from citizens and officials. It has also conducted extensive research into the various agencies of the state government.

The Commission believes that the state government can be made more efficient and economical by the following measures:

1. Streamlining the organizational structure of the state government.
2. Improving the methods of selecting and promoting state officials.
3. Increasing the use of merit systems in the state government.
4. Improving the methods of budgeting and financial control.
5. Increasing the use of public hearing and consultation in the decision-making process.
