RECEIVED

Attention Mr. W. A. Gressett

JAN 15 1976

Gentlemen:

D. C. C.
ARTESIA, OFFICE

Pursuant to our telephone conversation today, we are forwarding Form C-104, Electric Logs and Deviations pertaining to Penroc's Wright-Federal No. 2 well located in SW/4 NE/4 Section 6, T20S, R28E, Eddy County, New Mexico.

As discussed El Paso is currently constructing pipeline to connect this well and in the interest of conservation it is desired to test and conduct a four-point test into the line. After four-point calculations are determined the well completion form will be completed and submitted along with drillstem test reports, etc.

Approval of this request will be appreciated.

Very truly yours,

PENROC OIL CORPORATION

Sterling J. Talley
