Re: #1 Pardue SE SW 31-23-28

Gentlemen:

We are in receipt of Commission Form C-103 reporting setting 4½" liner in the subject well. However, this report does not agree with your proposal dated 12-5-66. If the liner was set at 12598' as stated on report dated 12-13-66, please file Form C-103 stating how the well was plugged back to this depth.

Very truly yours,

OIL CONSERVATION COMMISSION

W. A. Gressett
Supervisor, District No. II
