Dear Mr. Ramey:

The referenced well has been overproduced the last few months due to the higher demand from Llano Gas Pipe Line. By conversation with Mr. Harold Garcia this date, he has suggested that Hamon Oil Company request a higher allowable be assigned to this well to help meet the higher take requirements of Llano.

Also, Hamon will contact Llano and request that they increase their nomination to satisfy their requirements.

The efforts of the commission to help with this problem will certainly be appreciated.

Sincerely yours,

HAMON OIL COMPANY
