## N! MEXICO OIL CONSERVATION COMMISSI WELL LOCATION AND ACREAGE DEDICATION PLAT

| ; <del></del>   |                    | All dista | inces must be fro   | om the oute        | er boundaries of | the Section.  |                         |   |
|---|--------------------|-----------|---|--------------------|------------------|---------------|-------------------------|---|
|   | Corporation        | 1         | Lease<br><b>Latha</b> m   | Federal            |                  | Well No.      |                         |   |
| Unit Letter   | Section 15         | 15 25S    |   | Range              | 9E               | County<br>Edo | <br>dy                  |   |
| Actual Footage Location of Well:  1980   feet from the   South   line and   1800   feet from the   East   line  |                    |           |   |                    |                  |               |                         |   |
| Ground Level Elev.  | Producing Form     |           |   | Pool<br>Wild       | cat              |               |                         | Dedicated Acreage: 40 Acres   |
| 1. Outline the acreage dedicated to the subject well by colored pencil or hachure marks on the plat below.  |                    |           |   |                    |                  |               |                         |   |
| 2. If more than one lease is dedicated to the well, outline each and identify the ownership thereof (both as to working interest and royalty).  |                    |           |   |                    |                  |               |                         |   |
| 3. If more than one lease of different ownership is dedicated to the well, have the interests of all owners been consolidated by communitization, unitization, force-pooling.etc?   |                    |           |   |                    |                  |               |                         |   |
| Yes No If answer is "yes," type of consolidation  |                    |           |   |                    |                  |               |                         |   |
| If answer is "no," list the owners and tract descriptions which have actually been consolidated. (Use reverse side of this form if necessary.)  |                    |           |   |                    |                  |               |                         |   |
| No allowable will be assigned to the well until all interests have been consolidated (by communitization, unitization, forced-pooling, or otherwise) or until a non-standard unit, eliminating such interests, has been approved by the Commission. |                    |           |   |                    |                  |               |                         |   |
