

SURFACE USE PLAN

Exxon Corporation #1 Warfield Federal
1980' FNL and 1980' FEL of Section 30, T26S, R26E
Lease No. USA NM-19425, Eddy County, New Mexico
(Development Well)

1. EXISTING ROADS - Detailed map showing drillsite location in relation to a town or known point and all existing roads within a one mile radius of the well site are shown on Exhibit "A".

From White City, New Mexico, go northerly on U. S. Highway 180 approximately three miles to a paved road leading off to the south, follow the paved road southerly past the end of the pavement, continue on a county road approximately 15 miles to the location.

2. PLANNED ROADS - It is planned to construct approximately 1200 feet of new road as shown on Exhibit "A". The existing access road will be maintained as required by traffic.

1. Width of the new road to be constructed will be approximately 12 feet.

2. No grade change will be made in any part of the existing access road or the new road to be constructed in excess of six percent.

3. No turnouts will be necessary.

4. No special drainage features will be necessary.

5. No culverts will be required.

6. It is not anticipated that any surface material will be needed.

7. No cattleguards will be required.

8. The proposed road is center-line flagged.

3. LOCATION OF EXISTING WELLS WITHIN ONE MILE RADIUS -

1. Water wells - There is a windmill located approximately one mile east of the well site. There is also an Exxon water well located about 1/4 mile south of the State line in Culberson County, Texas. Both water wells are shown on Exhibit "A".

2. Abandoned wells - None.

3. Temporarily abandoned wells - None.

4. Disposal wells - None.

5. Drilling wells - Exxon's Milepost Com. 2, Well No. 1 is located in the NE/4 of Section 31, T26S, R26E, as shown on Exhibit "A".

6. Producing wells - Exxon's Milepost Com. No. 1 #1 and Scheidt Federal
