September 5, 1957

Poker Lake Unit

Well No. 4 is located 1980 ft. from XIX line and 660 ft. from E line of sec. 21
SE/4 of Sec. 21 T.25 S. R.30 E. N.M.P.M.
(1/4 Sec. and Sec. No.) (Twp.) (Range) (Meridian)
Wildcat Eddy County New Mexico
(Field) (County or Subdivision) (State or Territory)
The elevation of the derrick floor above sea level is 3278 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

Due to further study of formations to be drilled, casing program has been changed as follows:

Minimum of 400' of 10-3/4" casing to be cemented with not less than 15 sacks through surface sands and gravel.

Approximately 2500' of 8-5/8" casing to be set.

Cementing of production string, if required, to be as approved by Jack Frost, District Engineer, at time of running.

This revised program approved verbally by Jim Knauf on this date.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
