Was a Watercourse Reached? <input type="checkbox"/> Yes X No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.\*

Describe Cause of Problem and Remedial Action Taken.\*

Hole came in 6" fiberglass injection trunk line going under Hwy 238. This line is inside of conduit and water was released on both sides of roadway into the pastures. Possible cause could have been a week spot in the fiberglass.

Describe Area Affected and Cleanup Action Taken.\*

An Area of 30' x 300' on the West side of the Hwy and 30" x 390", 396" x 190" on the East side of the Hwy. Will clean up Iron Sulfide and let land dry up. Remove top soil and replace with good top soil.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
