**RECEIVED**

By OCD District 1 at 1:10 pm, Jul 16, 2015

If a Watercourse was Impacted, Describe Fully.\*

Describe Cause of Problem and Remedial Action Taken.\*

On Wednesday July 15, 2015 at 0830 (MDT), a Non-Reportable spill occurred when MSO found a 1 inch ball valve leaking, resulting in a release of 0.7 bbls oil and 6.4 bbls produced water with 5 bbls of produced water recovered. Location will be remediated as per NMOCD and COPC policies

Describe Area Affected and Cleanup Action Taken.\*

The area was in the pasture and will be remediated according to NMOCD guidelines

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
