Release Notification and Corrective Action

OPERATOR

☐ Initial Report ☐ Final Report

Name of Company	Sundown Energy, LP	Contact	Ralph Butler
Address	16400 Dallas Parkway #100, Dallas TX 75248	Telephone No.	214-368-6100 (ext 2102)
Facility Name/Lea	403 State #3	Facility Type	Abandoned Tank Battery
Surface Owner	State of New Mexico	Mineral Owner	State of New Mexico
		API No.	30-025-03128

LOCATION OF RELEASE

Unit Letter	Section	Township	Range	Feet from the	North/South Line	Feet from the	East/West Line	County
N	22	18S	35E	330'	South	2310'	West	Lea
Latitude		32.72764		Longitude		103.45177		

NATURE OF RELEASE

Type of Release	Historic	Volume of Release	unknown	Volume Recovered	N/A
Source of Release	Old Tank Battery Site (Abandoned)	Date and Hour of Occurrence	?	Date and Hour of Discovery	2015
Was Immediate Notice Given?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> X No <input type="checkbox"/> Not Required	If YES, To Whom?			
By Whom?		Date and Hour			
Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> X No	If YES, Volume Impacting the Watercourse.			
If a Watercourse was Impacted, Describe Fully. *					

Describe Cause of Problem and Remedial Action Taken. *

The tanks and equipment were removed from this battery site per State Land Office request. The tank battery area had one foot of soil removed and taken to authorized facility, and top soil was placed in area. Samples were taken in 54 sample holes at 4', 6' and 7' as indicated on attached sample plate. The area indicated minimal contamination across the old pad site with the highest chloride level at 704' sample 13 at 7'. (see soil samples)

It is recommended to contain the spill area by removing the top 1' of soil and rock and fill in the area with sand and top soil. Dig a trench 4' deep 1' outside of abandoned battery site, cover site with 20 mill plastic cover and extend down in to ditch to prevent surface travel of contamination. Move in top 3' of top soil on top of plastic. Send the area with native seed for surface growth and containment of the area.

Describe Area Affected and Cleanup Action Taken. *

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCDD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCDD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCDD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
