Describe Cause of Problem and Remedial Action Taken. *

DCP plant shut down - flaring 58 mcf/d

Describe Area Affected and Cleanup Action Taken. *

WE STOPPED FLARING 8/16/15 FOR A TOTAL OF 960 HOURS AND 2320 MCF

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state or local laws and/or regulations.
