If a Watercourse was Impacted, Describe Fully.\*

Describe Cause of Problem and Remedial Action Taken.\*

On October 30, 2015 at 1058 hrs. MDT, a line strike occurred on the trunk line from EVGSAU Satellite #3 to the EVGSAU CTB near the EVGSAU 3202-11 well that resulted in a release of 54 bbls oil and 423 bbls produced water, with 53 bbls oil and 422 bbls produced water recovered. The immediate action was to shut in EVGSAU Satellite #3 and to isolate the line. A work order has been submitted to repair the line and to remediate the area. The area will be remediated according to NMOCD and COPC guidelines.

Describe Area Affected and Cleanup Action Taken.\*

The immediate action was to shut in EVGSAU Satellite #3 and to isolate the line. A work order has been submitted to repair the line and to remediate the area. The area will be remediated according to NMOCD and COPC guidelines.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
