Describe Cause of Problem and Remedial Action Taken.*
This release was caused by water hauler with Maverick Coating Services. The driver was tasked with removing standing water from a recent rain from containments and disposing at the SWD. The driver chose not to wait and discharged the contents in his truck in the pasture next to the SWD. Witnesses reported the incident to the security department.

Describe Area Affected and Cleanup Action Taken.*
The release impacted the pasture adjacent to the pad. Soil samples were taken from the impacted area.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
