If a Watercourse was Impacted, Describe Fully.\*

**REVIEWED**  
*By Kellie Jones at 2:41 pm, Jan 13, 2016*

Describe Cause of Problem and Remedial Action Taken.\*  
Injection line breach; line shut down and repaired.

Describe Area Affected and Cleanup Action Taken.\*

SESI submitted written proposal to conduct remedial site activities according to NMOCD guidelines. Activities were concluded according to approved plan. Activities were concluded and SESI respectfully submits this final C-141 on behalf of Cimarex for closure of the regulatory file related to this incident.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
